Lustenau, 12th of November 2026

European Chemicals Regulation (EC) No 1907/2006 (REACh)

To whom it may concern,

the EU Chemicals Regulation (EC) No 1907/2006 on the Registration, Evaluation, Authorisation and Restriction of Chemicals has been in force since June 2007.
REACh affects practically all sectors of Industry and assigns defined roles and obligations to the participants in the supply chain.

We at ZIMM GmbH hereby confirm that we are familiar with our obligations regarding REACh.

As an EU-based manufacturer and supplier of screw jacks that constitute products in accordance with the aforementioned regulation from which no substances are released under normal usage conditions, we ourselves are not subject to any obligation for registration of substances and preparations.

We hereby confirm that, according to the current status of appendix XIV of the regulations, to the best of our knowledge, none of the substances listed therein are used as alloy materials or additives in the manufacture of our products.

Substances according to ECHAs candidate list for substances of very high concern (SVHC) / Information along the Supply Chain (article 33):
On June-27-2018 Lead (CAS No: 7439-92-1) had been added to ECHAs candidate list for substances of very high concern (SVHC). Currently Lead is present in some of our product components as an alloy element of free cutting steel and brass. The use of these products is furthermore permitted and safe. Safety documentation is not required.

Information about products containing substances of very high concern according to ECHAs candidate list (SVHC) can be obtained from our SCIP statement.

With best regards

ZIMM GmbH
